Drive your Ambition

> WE'LL OBSESS OVER THE DETAILS. YOU ENJOY THE RIDE.

Here at Mitsubishi Motors, we're fixated on the idea of perfection. There's a word in Japanese for this kind of obsession: Kodawari, which means "in pursuit of perfection." The practice focuses on three key pillars: passion, persistence, and precision. To manifest Kodawari, we apply these pillars over and over, infusing them into every vehicle we engineer, design, and innovate.

Why do we yearn to achieve perfection? Why are our standards so exacting? Why is attention to detail so essential? The answer is simple: you. Our customers. The people who drive our cars. Those with an appreciation for uncompromising craftsmanship and a pioneering spirit. The ones who don't mind being a bit unconventional, even if it means pushing boundaries and blazing new trails. Some call it idealistic, but for us, it's simply **Kodawari**.

> KODAWARI

**PASSION IS A FIRE FROM WITHIN, AN INNER
CONVICTION THAT SOMETHING IS WORTHWHILE.
WE Poured ALL OUR PASSION FOR TOMORROW'S
DRIVING TECHNOLOGY INTO THE 2023
OUTLANDER PHEV.**

MEET THE ALL-NEW 2023 OUTLANDER PHEV

> BOLD. CAPABLE. ELECTRIFYING.

Out-last, out-maneuver, and out-shine the competition. The audacious style of the 2023 Outlander PHEV will turn heads as it leads the charge toward a future where electric hybrid driving technology is both adventurous and accessible. Fusing groundbreaking innovation with easy functionality, the Outlander PHEV is powered by twin electric motors and a low-emission PHEV system. Super All-Wheel Control¹ nods to Mitsubishi's rally racing heritage, while features like regenerative braking shape its future. Plus, outstanding performance and advanced safety features mean that no matter where you go, the Outlander PHEV will rise to the occasion. With comfort in every seat, this PHEV seven-seater will delight drivers and passengers alike.

Take charge of the road in the 2023 Outlander PHEV.

> 01 CHARGED UP AND READY TO GO

The 2023 Outlander PHEV's **twin electric motors** and **2.4L MIVEC engine** work together to give you the best of both energy worlds. Switching between electric and gas power, the PHEV hybrid system intuitively shifts between three drive modes: **EV, Series Hybrid,** or **Parallel Hybrid**. These unique modes adapt to road conditions and provide the extra power and versatility you need to deliver a smoother on-road experience. Configured to maximize efficiency, the PHEV hybrid system integrates seamlessly with Mitsubishi's signature **Super All-Wheel Control¹** system and up to **1,500 lbs. of towing capability**.

> AMP UP YOUR DRIVE

Want even more EV efficiency? The **EV Mode Selector Switch** gives you access to four more drive modes: **Normal**, **EV Priority**, **Save**, and **Charge**. These eco-friendly options give you more control of the PHEV system to ensure that the Outlander PHEV's 2.4L MIVEC engine and twin electric motors are working optimally for the driving conditions.

> NOW THAT'S FAR OUT

The Outlander PHEV doesn't hold back with its combined range of 420 miles.² Need to zip around town? Charge up and use 100% electric power for up to 38 miles.² Need more distance? Switch it up with low to zero-emission drive modes that deliver an impressive 64 MPGe² to make weekend road trips fun and eco-friendly.

> ONE POWERFUL PEDAL

New to the Outlander PHEV, the **innovative pedal operation mode** allows acceleration and deceleration through the use of the accelerator pedal alone. In certain road conditions, the motor will also assist in ensuring there's minimal pedal operation. Experience a more natural drive with less fatigue caused by switching pedals.

> A CLEAN BRAKE

EXPLORE PERFORMANCE

Regenerative braking gives a whole new meaning to stop and go. While conventional brakes discard the energy generated when you stop, the Outlander PHEV captures it. Regenerative brakes convert kinetic energy into electricity that the vehicle uses to recharge the battery. This system activates automatically when your foot is off the accelerator and can be manually controlled using the steering-mounted paddle shifters.

> 02 THE BEST IN TECH

The 2023 Outlander PHEV keeps you connected, even while you're driving. With seamless integration courtesy of standard **Android Auto™³** and available wireless **Apple CarPlay®⁴**, you can turn your vehicle into an awesome extension of your smartphone. Access contacts, apps, navigation, and entertainment while keeping your hands on the wheel and your eyes on the road – it's all within easy reach on the crystal-clear, high-resolution **8.0" Smartphone-link Display**.

> **A SYMPHONY OF SOUND**

The Outlander PHEV is the perfect place to break out the jams. The available **Bose® audio system** creates an immersive audio experience, with nine speakers strategically placed around the cabin to offer built-in theater-like sound and maximum enjoyment. Daily commutes will finally get the stereophonic soundtrack you deserve.

> **NO CHILL**

Kick cold-weather driving to the curb. In the Outlander PHEV, thoughtful amenities like available heated front seats enhance the cocoon-like interior, while the available heated steering wheel keeps your hands toasty on even the chilliest nights.

> AT YOUR CONVENIENCE

EXPLORE TECHNOLOGY

The Outlander PHEV lets you control functions right from your smartphone, thanks to **Mitsubishi Connect**,⁵ a platform of services designed to provide you with a safe, secure, and seamlessly integrated driving experience. Program timers for your charging schedule and set climate controls for heating, cooling, and defrosting before you get inside. You can even check the charging status and the state of the battery, all with a tap of your phone.

> 03 SAFETY ON BOARD

Equipped with a suite of advanced safety features, the 2023 Outlander PHEV is ready for whatever comes your way. The standard **Forward Collision Mitigation system with Pedestrian Detection**⁶ monitors the road ahead, alerting you when it detects something in your path. If you don't respond, the vehicle attempts to brake for you to prevent a potential collision. It's not just about the front, though. The Outlander PHEV also covers your back thanks to **Rear Cross Traffic Alert**.⁷ It scans the area behind the vehicle as you reverse, and an audible alert will immediately let you know if it senses anything.

Back up front, the Outlander PHEV's **Automatic High Beams** monitor the road, detecting oncoming vehicles and switching between high- and low-beam headlights to reduce glare for other drivers. Plus, available **Adaptive Cruise Control**⁸ sets the pace, using radar technology to help keep a safe driving distance between you and the vehicle ahead.

> **SEE THE BIGGER PICTURE**

In the Outlander PHEV, you can always get a clear view. The available **Multi-View Camera System**⁹ uses multiple cameras to create a 360° composite of the area surrounding your vehicle, so you can see exactly what's happening around you. Plus, you always get a wide-angle view so you can park with more confidence, no matter how tight the spot.

> STAY CENTERED

EXPLORE SAFETY

MI-PILOT Assist™¹⁰ is an advanced driver-assist system that helps take the stress out of long-distance driving and stop-and-go traffic to help keep drivers more comfortable and relaxed behind the wheel. Using cameras and radar, MI-PILOT uses features that help adjust your steering input to reduce speed when navigating curves and keep you centered in your lane. Enjoy longer road trips and more pleasant drives with greater comfort and peace of mind.

OUTLANDER

> KODAWARI

PERSISTENCE IS THE ABILITY TO KEEP GOING.

THE DEDICATION AND COMMITMENT THAT

DOESN'T BACK DOWN FROM A CHALLENGE.

THE 2023 OUTLANDER PHEV PUSHES BEYOND

EXPECTATIONS AT EVERY TURN.

> 04 AUDACIOUS STYLE

Distinctive style is all about choices. When crafting the 2023 Outlander PHEV, we chose to go even further with the iconic design that is the hallmark of the Outlander series. The muscular proportions, with horizontal accents and chiseled lines, conjure an image of confidence with a dash of dramatic flair. Our signature **dynamic shield front grille** is flanked by standard premium LED headlights and available LED fog lamps, creating a powerful presence that's meant to see and be seen. Available **heated power side mirrors** round out the considered design, giving the Outlander PHEV a carefree appeal all its own.

> PLUG IN AND POWER UP

Recharging the Outlander PHEV is as simple as plugging it into the nearest electrical outlet. At home, use a professionally-installed 240V charging station to fully charge the Outlander PHEV in around eight hours. When on the road, find your nearest DC Fast Charging station to charge the PHEV to 80% in under 40 minutes.

> OPEN SESAME

Easy functionality plays a big role in the Outlander PHEV's identity, and thoughtful conveniences like the **power remote liftgate** can help streamline your everyday life. With the simple touch of a button, you can quickly and easily load and unload the trunk.

> **POWER IN MOTION**

**EXPLORE
EXTERIOR**

The available, bold 20" alloy wheels on the Outlander PHEV are bound to turn heads. Their sleek, sophisticated design adds an extra dose of distinctive style to underscore the Outlander PHEV's forward-thinking, intrepid character.

> 05 LOADS OF CARGO AND COMFORT

The 2023 Outlander PHEV's spacious interior cabin is the perfect place to recharge. Boasting a game-changing three rows of seating for up to seven passengers, the entire crew will enjoy sinking into the available sumptuous luxury leather and stretching out amidst the ample legroom. The configurable space with 40:20:40 split folding rear seats and up to 64.7 cubic feet of flexible storage gives you plenty of cargo options. Whether it's an extended road trip, camping with the kids, or a simple run to the grocery store, the Outlander PHEV is ready to stow whatever you need for life's next big adventure.

> RECHARGE YOUR BATTERIES

Get the juices flowing. With 1500W of power at your disposal, you can tap directly into the Outlander PHEV's main drive battery from the front center console or rear cargo area. The available **AC power supply**¹¹ offers an unrestricted source of electricity for lights, cooking equipment, appliances, and anything else you can imagine.

Optional features shown. Available at additional cost. Visit mitsubishicars.com for more information.

> A QUIET PLACE

You can almost hear a pin drop inside the Outlander PHEV. The insulating and dampening components muffle outside noise and road vibrations, resulting in a quieter cabin experience. Switch to **EV mode** to enhance the quietness further and experience a smoother, more serene ride.

> **KODAWARI**

> 08 GOING THE DISTANCE

We stand by what we build, which is why Mitsubishi vehicles are backed by a 10-Year/100,000-Mile Limited Powertrain Warranty.¹² The Outlander PHEV is also backed by a 10-Year/100,000-Mile Main-Drive Lithium-Ion Battery Warranty.¹² Just like our vehicles, these comprehensive warranties are designed to give you more peace of mind for the road ahead.

GENERAL DISCLAIMER: Optional features shown. Available at additional cost. Visit mitsubishicars.com for more information.

1. Available features. S-AWC and drive modes assist driving performance in varying weather and road conditions. Such systems cannot prevent collisions or loss of traction in all conditions and are not a substitute for safe and careful driving. The driver must remain engaged with the driving task and monitor the environment at all times. See Owner's Manual for further information. **2.** EPA highway mileage estimate for (Outlander PHEV SEL, LE, and GT). Combined fuel economy Electricity + Gasoline. Actual mileage may vary with driving conditions. Use for comparison only. **3.** Available feature. Android™, Android Auto™, Google™, Google Play™, Google Maps™, Google Assistant™, Google Home™ and other marks are trademarks of Google LLC. Distracted driving is dangerous. Restrict use of connected devices to safe times and always exercise caution so your full attention is given to vehicle operation. **4.** Apple CarPlay: Available feature. Apple CarPlay®, Siri®, and Apple Music® are trademarks of Apple Inc., registered in the U.S. and other countries. iPhone is a registered trademark of Apple Inc. Distracted driving is dangerous. Restrict use of connected devices to safe times and always exercise caution so your full attention is given to vehicle operation. **5.** Included for two years as a new Mitsubishi owner of a MITSUBISHI CONNECT™-capable vehicle. After the two-year trial, standard yearly subscription costs apply. **6.** The Forward Collision Mitigation (FCM)/Pedestrian Detection (PD) system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, the system may not detect other vehicles and/or pedestrians correctly. **7.** The Rear Cross Traffic Alert system is a driver aid only and is not a substitute for safe and careful driving. Under certain circumstances, this system may not detect other vehicles correctly. Availability of advanced safety features varies by model, see dealer for details. **8.** Adaptive Cruise Control is not a collision avoidance system or an automatic driving system. It is designed to use only limited braking and is never a substitute for safe and careful driving. Never rely solely on the Adaptive Cruise Control system. **9.** The Multi-View Camera System is a driver aid only and is not a substitute for visual confirmation. The view on the screen is limited and objects outside that view will not be seen. **10.** MI-PILOT Assist™ is a driver assistance system only and is not a substitute for safe and careful driving. The driver must remain engaged with the driving task and monitor the environment at all times. **11.** WARNING: Exercise caution when using the AC Power Supply. As with all electrical power supplies, there is a hazard of shock. See Owner's Manual for further warnings and instructions. **12.** All coverage terms are from the original in-service dates and are applicable only to the original owner of new, retailed models purchased from an authorized Mitsubishi dealer. Subsequent owners receive the balance of the New Vehicle Limited Warranty of 5 years/60,000 miles. See retailer for limited warranty and roadside assistance terms and conditions. **13.** The Vehicle's Main Drive Lithium-ion Battery is covered for defects in material and workmanship for 10 years or 100,000 miles, whichever comes first. Gradual capacity loss of the Main Drive Lithium-ion Battery based on time and usage is NOT covered under this warranty. As the Main Drive Lithium-ion Battery capacity decreases, the initial cruising range of the Vehicle will similarly decrease. See retailer for limited warranty terms and conditions. **14.** The Blind Spot Warning and Rear Cross Traffic Alert systems are driver aids only and are not substitutes for safe and careful driving. Under certain circumstances, these systems may not detect other vehicles correctly. Availability of advanced safety features varies by model, see dealer for details.
